Our Children, Our Students, Our Future: Moving the Dial on Every Child

Priority	Essential Principle Focus for Improvement Highlight one/two Essentials for improvement for each Priority	School Goal Reframe the Division Goal into a School Goal that highlight school focus	Results (current reality)	Target Data (desired reality)	Implementation Plan Consider research and best- practice in the short and long term	Short Report (completed as data becomes available)
Connectivity FVSD will foster connectivity and well-being amongst community, students, parents, and staff	 Approach every relationship with an open heart, listening attentively, responding genuinely, and interacting with authenticity. Deliver explicit teaching on the five fundamental social and emotional competencies that every student should acquire. (Self-awareness, Self- management, social awareness, Relationship skills Responsible decision- making) 	The school goal of BHCS is to create an environment that prioritizes connectivity and well-being among the community, students, parents, and staff, ensuring a positive and collaborative educational experience.	Baseline Data (Current Reality) Student responses: Div 1 1)adults in the school make me feel: 70% Happy / 30% Excited 2) The other kids in school make me feel: 70% Happy/16% Excited/ 1% Sad/ 10% worried 3) How I feel most day at school: 66% Happy/27% excited / 6% worried Div 2 100% students say they have at least 1 close friend. 78% say they enjoy coming to school. 90% feel accepted by their classmates while at school. 88% feel accepted by the staff 92% feel safe while at school Div 3 40% said they enjoy coming school. 65% feel accepted by staff. 95% feel accepted by staff. 95% feel accepted by classmates 90% feel safe at school Target Data (Desired Reality) That 80% of students (Div 1-3) would say that they enjoy coming to school) And to have 0 students that feel that are unconnected or unaccepted.	Target Data (Desired Reality) That 80% of students (Div 1-3) would say that they enjoy coming to school) And to have 0 students who feel that are unconnected	We use our connectivity data to target and zero in on the students that indicate that they don't have any close friends or feel worried while at school. All of our "unconnected students" are placed on shared staff doc. During CRM meetings staff are asked to report back on the "unconnected" student that they agreed to check in on throughout the month. Using a positive reinforcement system: Students will be encouraged to practice the skills learned in the Second Step program throughout the school day with support from the FVSD Connection Team.

- Weave Career Conversations into Everyday Learning: Naturally integrate discussions about future careers into your curriculum. Help students connect their classroom learning to real-world applications and potential career choices.		events. (The annual Community Cook-Off) In the food kitchen, students gain hands-on experience and hone skills essential for culinary arts careers and working in local restaurants and industry camps.	
- Unlock Potential Through Playful Exploration: Embrace the power of play! Design engaging activities that allow students to explore different roles, interests, and skills in a fun and creative way. Play can be a powerful tool for early career exploration.		Utilize the support of Stef Brown (Career Exploration) Academies to adopt a purposeful play model for career exploration.	

As the representative of the School Council at this school, I hereby give my endorsement to this School Assurance Plan for the 2024-25 school year. I hereby acknowledge that the school council has had opportunity to provide feedback on this plan and support it as is here presented. As Principal of this school, I hereby submit our School Assurance Plan for the 2024-25 school year. This plan has been created in collaboration with all staff at this school, as well as with the school council.
